

COURSE OUTLINE

Abstract:

This 2 1/2-day course is for those who have attended Segments I (Introduction) and II (Record Taking and Splint Making). Segment III is a more intensive review of Diagnosis and Treatment Planning relative to the Six Elements of Orofacial Harmony™. Systematic "Treatment Rules" for each Element will be taught. Participants are expected to make a presentation consisting of the beginning records, diagnosis and treatment planning for one patient.

Day 1, Fri Sept 12, 2008: Review, Rules for Treatment, Diagnosis and Treatment Planning

- 8:00 - 8:30 Registration at the Medical University of Graz, Department of Dentistry:
"Zahnklinik", Universitätsklinik Graz, Auenbruggerplatz 12, 1st floor, 8036 Graz,
(please be informed that the building will be the same as for segment 2 but different from segment 1)
- 8:30 - 9:00 Introduction and Review of Segments I and II
- 9:00 - 10:30 Treatment Rules for Elements I-V
- 10:30 - 11:00 Break
- 11:00 - 12:30 Diagnosis and Treatment Planning
- 12:30 - 1:30 Lunch
- 13:30 - 15:15 Diagnosis and Treatment Planning
- 15:15 - 15:35 Break
- 15:35 - 17:00 Diagnosis and Treatment Planning
- 17:30 Guided city tour and Chill Down at the Grazer Schlossberg**

Day 2, Sat Sept 13, 2008: Diagnosis, Treatment Planning, Rules for Treatment

- 8:30 - 10:00 Diagnosis and Treatment Planning
- 10:00 - 10:20 Break
- 10:20 - 12:00 Diagnosis and Treatment Planning
- 12:00 - 13:30 Lunch
- 13:30 - 15:15 Diagnosis and Treatment Planning
- 15:15 - 15:35 Break
- 15:35 - 17:00 Diagnosis and Treatment Planning

Day 3, Sun Sept 14, 2008: Diagnosis, Treatment Planning, Rules for Treatment

- 9:00 - 10:30 Diagnosis and Treatment Planning
- 10:30 - 10:50 Break
- 10:50 - 12:15 Diagnosis and Treatment Planning

MATERIALS LIST

The success of the course is dependent on your participation:

- Complete beginning records of one patient including: mounted study casts, lateral cephalogram (oriented vertically if possible), panoramic x-ray, periapical x-rays (as needed), intraoral photographs, extraoral photographs including a smiling profile picture with hair away from the forehead and maxillary incisors bared.
- Tracing of the lateral cephalogram on **clear** acetate suitable for projection on an **overhead** projector (not on regular tracing acetate)
- Small cut-out rectangles of **clear** acetate (ca 6cm x 9cm) to position over the maxilla and mandible for tracing Element I incisor positions.
- Your Element I plastic template for tracing incisors.
- Red, black and green markers (Sparpee pens) suitable for drawing and writing on the acetate sheets.
- 3 page handout to distribute to each participating student (40 copies). Page one is the headfilm tracing, page two is for the patients intraoral and extraoral photographs, page three is the diagnostic sheet.
- Powerpoint presentation of the patients beginning records as well as diagnostic information and treatment plan (see included powerpoint slide layout example).
